Siemens, L. (2007). Resolving small

International Entrepreneurship Research: What Scope for ...

International entrepreneurship (IE) research has commonly neglected significant perspectives applied by international business scholars. Explanations for the emergence and growth of international entrepreneurial firms largely focus on the resource-based view and the network perspective. While these approaches are useful, we suggest that IE would benefit significantly from a greater emphasis on its international nature . Therefore, theories of international business should be employed in
